

POST RANCH SPA SLEEP MENU

Introducing the Post Ranch Sleep Program

Exclusively for Post Ranch Guests

Everything we do in life is done better with a good night's sleep. Enabling you to recharge and feel more lively throughout the day, sleep offers the added benefit of boosting your immune system, lowering your risk of health issues and improving concentration and productivity, amongst other virtues. Sleep, quite simply, is one of the most important elements of a healthy lifestyle.

We're pleased to offer our Spa Sleep Menu to help guests relax and prepare the body and mind to drift off into a deep sleep and awaken feeling rejuvenated. As part of The Post Ranch Sleep Program Package, guests are invited to select two of the following sleep-related treatments to experience over the course of their stay. Offering two categories of treatments, select from "Healing Guided Journeys" or from "Interactive Wellness Experiences." Treatments can be enjoyed alone or as a couple. Additional treatments can be added.

Healing Guided Journeys

HEALING GUIDED JOURNEYS

Yoga Nidra

Yoga Nidra, or yogic sleep, can effortlessly bring you into states of consciousness allowing for deep restoration of mind and body. This simple guided meditation, in a comfortable reclining position, progressively accesses deeper brainwave states shifting from alpha to theta and then into regenerative delta states. Frequently, stressful situations prevent the mind from fully accessing the benefit of these deep brainwave states, even in sleep. A regular practice of Yoga Nidra can help neutralize “sleep-debt” and ease you into ever deepening levels of sleep.
